AMENDMENTS TO THE CLAIMS

Docket No.: 0033-1084PUS1

1. (Currently Amended) An artificial physiological salt solution which can be used as a <u>cleaning solution for the eyes or the nose an organ cleaning solution</u>, wherein the active hydrogen reaction value is 0.01 to 1, the pH is <u>6.0 to 7.7</u> 4.0 to 7.9 and the osmotic pressure is <u>280 mOsm/L to 305 mOsm/L 260 mOsm/L to 2560 mOsm/L</u>.

2. (Cancelled).

- 3. (Currently Amended) The artificial physiological salt solution according to Claim 1 [[2]], characterized by including sodium ions, potassium ions and chloride ions.
- 4. (Original) The artificial physiological salt solution according to Claim 3, characterized by including not higher than 200 mEq/L of sodium ions.
- 5. (Original) The artificial physiological salt solution according to Claim 3, characterized by including not higher than 100 mEq/L of potassium ions.
- 6. (Original) The artificial physiological salt solution according to Claim 3, characterized by including not higher than 200 mEq/L of chloride ions.
- 7. (Currently Amended) The artificial physiological salt solution according to Claim 1 [[2]], wherein adjustment of ion balance is carried out on electrolytic reduction water.
- 8. (Currently Amended) The artificial physiological salt solution according to Claim 1 [[2]], characterized in that the oxidation-reduction potential is -800 mV to +200 mV.
 - 9. 12. (Cancelled).

Application No. 10/585,192

Docket No.: 0033-1084PUS1

13. - 14. (Cancelled).

15. (Cancelled).
